Pathway to collecting points to win the series:

Participants obtain points in each category (solo, duet, mixed duet and team) selecting freely the different competitions to attend. National Federations must participate in a minimum of four (4) competitions to be eligible for prize money in each of the categories.

Different combinations of athlete participations are possible as long as the minimum number of events are completed: For example: countries may obtain points for the solo prize money by competing in three (3) solo tech events and one (1) solo free event with different athletes in four different competitions.

In the team category, any combination of four possible events (Team Free, Team Tech, Team Combination or Highlight Routine) would be valid as long as the National Federation competed in four team events at four different competitions.

Tie situation

In case of a tie for any prize money position, the prize money corresponding to the number of placings tied will be divided in equal parts to the countries affected.

For example, if there is a tie for the 3rd place by two countries, the money prize assigned for 3rd and 4th places will be added up, divided in two and delivered to both, and the next placement will be the 5th place.
