Each year, the FINA Diving Grand Prix invites divers from all parts of the world to compete during the February-October period in a circuit of nine four-day meets.

FINA intends to provide the international diving elite with a high-level competition that takes place in countries or locations that have a strong tradition in the sport, therefore enhancing their popularity.

The Grand Prix competition programme includes women's and men's 3m springboard, 10m platform, 3m springboard synchro and 10m platform synchro.
