FINA World Championships 2017, Budapest, Hungary

355 swimmers from 49 nationalities were tested with the occasion of the FINA World Championships Budapest 2017 making a total of 484 doping controls missions.

These missions represents the collection of 479 urine samples and 205 blood samples.

Nota Bene: a mission on an athlete may consist of various tests and analyses: urine sample, blood sample for athlete passport, blood sample for other blood analysis (e.g Blood Transfusion CERA, HBOCs, Growth Hormone, etc).
