Report

On the same day the Greek male water polo team (U-19), in Belarus, won gold medal at the European Championships, the Greek women's junior team won the world bronze. A completely deserved victory in the match against Australia, in which the defence was decisive for the final outcome. The Greek goalkeeper Emmanouela Archontaki was fantastic one more time. The first quarter was quite balanced, but the Greek team had some problems with man-up situation (0-4). The only goals in that period of game were scored by Greece on penalty and by man-up for Australia. Defence still dominated in the second quarter with a minimal lead of Greece at the end of second period (3:2). The decision concerning the winner came in the third quarter when Greece scored three goals and took a 6:2 lead before the last eight minutes, which proved crucial.

Gold is going to Spain! The curtain at the 4th FINA World Women's Youth Water Polo Championships in Belgrade, capital of Serbia, is down, after Sunday's finals and the gold-medal match between two European teams, Spain and Italy.

The new world Women's Youth champions are the Spanish players who managed in the final a one-goal advantage over very strong Italy. The Spanish team deserved the trophy as they were the only team in the World Championships that hasn't lost a single match. In addition, they also had the best player in the tournament, Alejandra Aznar. Italy had its biggest moment when it won the quarter-finals against the US team, who came to Belgrade as a candidate for a medal and left in the seventh position.
