Introduction

In this study you will find a presentation of the Olympic and World FINA Synchronised Swimming Events with the standings of the first three places at all events of these competitions followed by several classifications which are listed either by the number of titles or medals by swimmer or National Federation. It should be made clear that these standings only have a historical aim and not any sportive signification. Indeed, the comparison between the achievements of swimmers of different generations is always unfair for several reasons:

1. The period of time with different calendars
2. The evolution of the programme, especially the Olympic programme and the successive additions to the FINA programme
3. Political boycott didn't give the opportunity to some athletes to take part in the 1984 Olympics.

This edition may manifest certain errors; we hope that this will be remedied for the next edition with the assistance of our readers. The FINA Office would be happy to receive any amendments or notification of inaccuracies concerning this brochure.

LIST OF ABBREVIATIONS – The abbreviations used for each National Federation are included at the end of this volume. However, for Germany, for the period of 1968-1991, the abbreviation FRG was used for the Federal Republic. Russia and Uzbekistan were part of USSR until 1991.
