With Cluster #3 around the corner, more than 150 athletes (71 women, 84 men) are heading to Singapore (SIN) for the seventh leg of the FINA/airweave Swimming World Cup 2016.

While the Hungarian star can already count a minimum of seven wins per meet (7 in Paris-Chartres, Berlin, Moscow and Beijing, 9 in Dubai and Doha), Katinka Hosszu, who equalled her record of 13 medals in Doha last weekend, largely dominates the women's overall standing with 783 points, cashing twice the US$ 50,000 prize money of Cluster #1 and #2.

Denmark's Jeanette Ottesen ranks second of Cluster #2 as well as in the overall ranking with 309 points. Collecting four golds in Doha, Ottesen said: "I just go out there and try and have some fun. I didn't really expect anything because Katinka has been swimming so well. But I'm pleased I won."

Talking about the Swimming World Cup, she added: "It's been good. I'm really thrilled to perform so well in the finals. I'm happy now but I need to rest and then turn my attention to Singapore."

Her medal points put her ahead of Alia Atkinson (JAM) who earned the same number of points (168), but had less medals and more bonus for her outstanding times, in particular thanks to her tied 50m breast World Record at the inaugural leg in Paris-Chartres (FRA) back in August.

Among the men, Vladimir Morozov of Russia is topping the overall ranking with 436 points, as he collected 31 gold medals across the six first meets of the season. Morozov broke his own World Record in the 100m IM in 50.30 in Berlin (GER), a record he had himself set in Paris-Chartres a few days before.
Morozov is closely challenged by South Africa's butterfly king Chad Le Clos who earned 387 points. Philip Heintz from Germany is third with 234 points.

The circuit continues with the last three legs of the season in Singapore (October 21-22), Tokyo (October 25-26) and Hong-Kong (October 29-30).

Highlights videos of each leg are available on FINA Youtube channel and all legs are live streamed, free of charge, on FINA TV.

The Short-Course champions and fans have another exciting event coming up at the end of the year - the FINA World Swimming Championships (25m) - taking place in Windsor, Canada, from December 6-11.

With one leg to go, Waschburger (GER) and Bruni (ITA) lead the rankings

Despite not winning the last FINA/HOSA Marathon Swimming World Cup leg in Chun’An, China, on October 9, Andreas Waschburger of Germany and Italy's Rachele Bruni are leading the men and women's ranking with 80 and 66 points respectively.

Brazil's Poliana Okimoto, who only missed the Canadian stops this year, is second in the ranking with 58 points. She is followed by World Championships bronze medallist (25km) Angela Maurer, 49 points.

The Chun’An leg, which took place on October 9, was particularly highlighted by China's first ever gold medal in the yearly Series - Xin Xin (CHN), 20, made history on home soil as she touched home first on Sunday in 2h05m55s8, beating some of the biggest names in open water.

In the men's race, the gold went to Italy's Simone Ruffini, who touched home in 1h56m01s3.
